1	<u>Option selected – Apprehensive</u> I do not feel that all issues can be discussed in the time and detail that ssf go into. I would not have the confidence nor background knowledge to cover this with the children, it requires experienced skilled individuals to cover the aspects.	<u>Option selected – Not at all</u> As above. Feel it would be harder to cover with parents from a staff point of view!	<u>Option selected – Strongly agree</u> It is not more appropriate but only appropriate that it involves specially trained individuals.	<u>Option selected – Highly</u> The programme is one of the most crucial ‘life’ experience approach and part of national curriculum we follow. It should be made mandatory across the UK and streamed into ‘Curriculum for Excellence’, as a workshop programme for all children to attend!	There is no doubt in any of our nursery staff that safe strong and free, is an integral and vital part of a child’s learning. The council should consider paying their own lunch costs and travel costs to minimise spending and leave the important, vital services to continue to offer their worthwhile and wonderful services!
2	<u>Option selected – Not at all</u> Having the service withdrawn would be detrimental to the children’s learning over these important aspects that ssf teach and learn, the issues are out-with our normal learning programme and I do not feel staff at the nursery would be able to even ‘touch’ on the issues discussed during the ssf workshops to an effective standard.	<u>Option selected – Not at all</u> Finding time to discuss these issues with parents is hard enough, having trained volunteers, to discuss with parents is <u>vital</u> in ensuring parents comprehend and understand exactly what the programme is about. These are sensitive issues that should be discussed professionally and through ssf.	<u>Option selected – Strongly agree</u> We have been in a situation where one of our children’s parents was abused herself when she was younger and having supportive, trained staff to discuss the programme at that time was vital. Staff at our nursery would not have been able to handle the situation effectively without ssf.	<u>Option selected – Highly</u> Excellent service, with values that outweigh any costings – ssf should always be available to all children in the Highlands. There are too many benefits to list, losing this service would be detrimental to the childcare sector.	I am shocked that the ssf project is even being considered for cost cutting! The immense work and benefits that evolves from the workshops is second to none and vital in children’s development and learning! Nurseries across the region cannot praise the organisation enough and have worked in partnership to ensure every child has access to the ssf workshops, knowing full well the benefit it brings to every child that attends the workshops!

5	<u>Option selected – Apprehensive</u> -	<u>Option selected – Apprehensive</u> -	<u>Option selected – Agree</u> -	<u>Option selected – Fairly highly</u> -	The ssf staff provide an invaluable service. They are trained to provide the necessary support to childcare staff to help children deal with many issues. Many of the staff in this setting do not have the necessary training to deliver the appropriate support to children. ssf provides a great service and is delivered well by staff who are knowledgeable ,confident and friendly.

6	<u>Option selected – Apprehensive</u> Not able to deliver content of workshop 3.	<u>Option selected – Apprehensive</u> As above.	<u>Option selected – Strongly agree</u> -	<u>Option selected – Highly</u> -	Ssf offers a valuable professional service which should be extended into primary schools rather than being diminished.
7	<u>Option selected – Fairly</u> I'm in a better position here as I used to work with ssf as a Project Worker myself. I would need to brush up my knowledge.	<u>Option selected – Fairly</u> As above.	<u>Option selected – Agree somewhat</u> There is an advantage in the objective eye coming in for all concerned – it might be easier for parents to discuss issues freely and someone with no local connection might notice something or pick up on a comment overlooked by staff. Certainly anyone would need further training over and above their nursery experience.	<u>Option selected – Highly</u> -	-
8	<u>Option selected – Fairly</u> I don't have a problem talking about this to children – but training would be good.	<u>Option selected – Apprehensive</u> I'd find this hard being in a small village – but with training it might be better.	<u>Option selected – Agree</u> I would rather have somebody do it that nobody do it, and I'd do it myself if it came to it.	<u>Option selected – Highly</u> -	Please, if it's possible don't cut this service. It's <u>so</u> important. Could you not train all nursery assistants or someone within each nursery willing to do this, and have an annual training/refresh course – rather than cut it down or out.
9	<u>Option selected – Fairly</u> -	<u>Option selected – Fairly</u> -	<u>Option selected – Agree</u> -	<u>Option selected – Adequate</u> -	-
10	<u>Option selected – Apprehensive</u> -	<u>Option selected – Apprehensive</u> -	<u>Option selected – Strongly agree</u> -	<u>Option selected – Highly</u> -	It would be a great shame if this programme was to be cut – the children thoroughly enjoy the sessions and is so beneficial to their welfare and development. Safe strong and free is an important part of the preschool education.
11	<u>Option selected – Apprehensive</u> Feel ssf cover areas very well as they are trained to do this and the children get good confident information which they remember.	<u>Option selected – Apprehensive</u> -	<u>Option selected – Strongly agree</u> -	<u>Option selected – Highly</u> -	-

14	<u>Option selected – Adequate</u> -	<u>Option selected – Not at all</u> Some parents don't want to talk to their children about some issues i.e. "safe cuddles".	<u>Option selected – Strongly agree</u> Know how to help children understand.	<u>Option selected – Highly</u> -	-

17	<u>Option selected – Apprehensive</u> Staff cannot match the skilled input given at present.	<u>Option selected – Apprehensive</u> As above.	<u>Option selected – Strongly agree</u> -	<u>Option selected – Highly</u> -	-
18	<u>Option selected – Apprehensive</u>	<u>Option selected – Apprehensive</u> -	<u>Option selected – Strongly agree</u> -	<u>Option selected – Highly</u> -	-
19	<u>Option selected – Fairly</u> A visitor and puppets often makes more of an impact on the children.	<u>Option selected – Fairly</u> Parents often respond to trained individuals.	<u>Option selected – Agree somewhat</u> Parents and children often respond to visitors/trained individuals better.	<u>Option selected – Highly</u> -	-
20	<u>Option selected – Apprehensive</u> Only a small amount of knowledge as I worked for a different Council before joining this group it's the first time I have experienced the programme.	<u>Option selected – Adequate</u> -	<u>Option selected – Strongly agree</u> There are sensitive subjects being covered which I feel needs a specially trained individual.	<u>Option selected – Highly</u> -	-
21	<u>Option selected – Adequate</u> Whilst I have adequate knowledge of the subjects I do not believe that I would know how to deliver this to the children confidently or with success.	<u>Option selected – Fairly</u> -	<u>Option selected – Strongly agree</u> Children need to feel reassured and the subjects covered have to be delivered in a sensitive yet approachable and friendly manner. A different person to the group is often also listened to more than those there daily. It is essential.	<u>Option selected – Highly</u> It is an invaluable service and empowers the children.	-
22	<u>Option selected – Not at all</u> This is a specialist subject and should stay this way with professionally trained people.	<u>Option selected – Apprehensive</u> No training has been given to staff on ssf, we only get snip bits from children.	<u>Option selected – Strongly agree</u> -	<u>Option selected – Fairly highly</u> -	-
23	<u>Option selected – Apprehensive</u> Wouldn't feel confident to discuss all the issues covered. Ssf staff delivers this in a clear, easily understood child friendly manner.	<u>Option selected – Apprehensive</u> Wouldn't feel I would have the knowledge to adequately answer any question.	<u>Option selected – Strongly agree</u> -	<u>Option selected – Highly</u> Ssf staff have had the ability to capture the attention of even the most unruly children!	-

24	<u>Option selected – Apprehensive</u> I would not feel confident to adequately raise the issues which are brought up by ssf.	<u>Option selected – Apprehensive</u> For the same reasons above, this is not really my background.	<u>Option selected – Strongly agree</u> -	<u>Option selected – Highly</u> -	-
25	<u>Option selected – Very</u> Having observed the programme for 8 years, I feel confident that I could deliver the programme if I had to but find it a great deal more beneficial to observe the children whilst they are watching the very professional ssf team carry out the workshops.	<u>Option selected – Fairly</u> I still feel it is better delivered by a professional team who are not involved with the parents on a daily basis.	<u>Option selected – Strongly agree</u> See comments under 2.	<u>Option selected – Highly</u> -	-
26	<u>Option selected – Adequate</u> Ssf team are able to be specific about particular topic and the children learn from this. As a nursery we might feel that a lesson in nursery could be led away from specifics through nature of curriculum i.e. child led. <u>Not</u> so adult directed.	<u>Option selected – Apprehensive</u> Again, ssf team are specifically focussing a bullying and stranger danger and have all the tools (equipment) necessary to get the message across to parents in a short space of time i.e. what they are going to be teaching nursery pupils over 3 sessions.	<u>Option selected – Strongly agree</u> Yes, the parents and children will respond to specially trained individuals as this is their 'speciality'. Teachers and nursery staff don't necessary have the specific necessary skills to go into subjects in detail. Also, if someone different for a short spell – people have more memories of these sometimes.	<u>Option selected – Highly</u> Excellent service. Disappointed that parents sessions are so poorly attended – ones I know of anyway. Maybe some are well attended?	I believe that this programme should continue and have written a letter of support for it to continue to councillors. See copy enclosed. Excellent work. Hope it continues.
27	<u>Option selected – Apprehensive</u> Although I have heard of ssf this is the first time I've seen the service delivered. I feel I would need training to handle these issues.	<u>Option selected – Apprehensive</u> Again I don't feel I have the experience to discuss this with parents.	<u>Option selected – Strongly agree</u> Specially trained individuals know exactly what signs or comments to look out for and how to react. It is carried out very sensitively, and I was very impressed.	<u>Option selected – Highly</u> I think this is a very important service and there is nothing else of its kind available as far as I am aware. It would be a great shame if it was not going to continue.	Although I was only able to attend the first and third sessions I was very impressed with the delivery of the service and how well the issues were handled. In my opinion this is a very important service which needs to continue.
28	<u>Option selected – Fairly</u> -	<u>Option selected – Fairly</u> We are a small school and have very good relationships with parents.	<u>Option selected – Strongly agree</u> -	<u>Option selected – Highly</u> This project provides an excellent service to the school. Parents and children are very supportive of it. It contributes to our planning and curriculum.	-
29	<u>Option selected – Apprehensive</u> The children listen intently to a new person coming in and addressing them. They would not concentrate so easily with their regular contacts.	<u>Option selected – Apprehensive</u> Parents find the subject difficult to address themselves.	<u>Option selected – Strongly agree</u> -	<u>Option selected – Highly</u> <u>Very</u> highly valued.	It is an extremely important service which should be continued.

30	<u>Option selected – Apprehensive</u> Would find it difficult to tackle the last session about possible sexual abuse. Children looked forward to Shonda coming and really paid attention to someone new coming in.	<u>Option selected – Apprehensive</u> Not very happy about discussing some of the topics/issues particularly the sexual abuse one.	<u>Option selected – Strongly agree</u> Someone detached from the family is much better when discussing sensitive subjects.	<u>Option selected – Highly</u> We thought it was an excellent service and that it was delivered extremely well.	I think this should be continued – it's very important that children learn to look after themselves and it is much better that it is delivered by a specially trained person.
31	<u>Option selected – Adequate</u> -	<u>Option selected – Adequate</u> -	<u>Option selected – Agree</u> I think input from families is needed too, and some could cover these subjects, but for those who may not be able to discuss these issues or who don't know how to go about it, then ssf is really needed.	<u>Option selected – Highly</u> We have always had a very positive feedback form parents and the children quite often refer to the workshops when situations arise.	-
32	<u>Option selected – Fairly</u> Fairly comfy with info – know enough to explain to children at their level – however, important things like this should maybe be spoken about on regular basis and ssf have an excellent way of delivering this to children.	<u>Option selected – Fairly</u> Same as above but would prefer the experts to do it (more thoroughly!)! Parents and children enjoy (may take more notice!!) of other agencies!!	<u>Option selected – Strongly agree</u> See #2.	<u>Option selected – Highly</u> This service <u>will be missed</u> if not available. The staff are always enthusiastic, well informed and deliver the sessions well. Although myself/other staff here are knowledgeable (thanks to ssf) on the subject – ssf would be welcomed here in the future as he value their sessions/previous children remember Callum/Shona and their messages.	Good luck with the future!
33	<u>Option selected – Adequate</u> I chose adequate only because ssf have been coming to see the children in pre-school for a number of years and I have been present when they are talking to the children about the topics raised.	<u>Option selected – Adequate</u> As above I have to point out that the staff in the pre-school would not feel able to carry out the talks themselves given to children and parents regarding ssf.	<u>Option selected – Agree</u> I do agree that the people who talk on sensitive subjects need to know what they are talking about and how to convey this to others.	<u>Option selected – Fairly highly</u> All the ladies who come to talk to the children, parents and staff were great.	-
34	<u>Option selected – Fairly</u> -	<u>Option selected – Fairly</u> -	<u>Option selected – Strongly agree</u> -	<u>Option selected – Highly</u> -	For the past few years the ssf staff have covered their part of the curriculum very successfully. They perform a very useful role in my opinion.
35	<u>Option selected – Fairly</u> -	<u>Option selected – Fairly</u> -	<u>Option selected – Agree somewhat</u>	<u>Option selected – Fairly highly</u> -	-

36	<u>Option selected – Adequate</u> But adequate is not good enough!	<u>Option selected – Adequate</u> -	<u>Option selected – Agree</u> -	<u>Option selected – Highly</u> -	-
37	<u>Option selected – Adequate</u> -	<u>Option selected – Adequate</u> -	<u>Option selected – Agree</u> -	<u>Option selected – Highly</u> -	The ssf team have provided a valuable contribution to the social and emotional development of the children involved in the programme. All of the parents are very happy with the service. We would not like to lose this valuable resource. Thank you.
38	<u>Option selected – Fairly</u> -	<u>Option selected – Fairly</u> -	<u>Option selected – Strongly agree</u> Issues would be far better covered by trained ssf staff.	<u>Option selected – Highly</u> -	Ssf has been visiting our nursery for a number of years and the sessions are very child friendly and informative. The staff who deliver these sessions are very well trained and cover all issues in a child friendly and approachable manner. Nurseries would miss this service greatly as it prepares children for becoming more independent in the outside world.
39	<u>Option selected – Fairly</u> We deal with these issues on an ongoing basis and as children join at different times they are continually being reinforced.	<u>Option selected – Fairly</u> Timing would be an issue though.	<u>Option selected – Strongly agree</u> Yes as they are more likely to spot signs of problems more readily.	<u>Option selected – Fairly highly</u> -	-
40	<u>Option selected – Apprehensive</u> Wouldn't feel confident to deliver everything to the children in a way they would take the information and enjoy the session.	<u>Option selected – Adequate</u> It would be easier to do with parents than children, but I would still be unsure of making sure I got all the info across. Also depends if parents are interested.	<u>Option selected – Strongly agree</u> Definitely better to have someone not connected to/related to one of the children or families.	<u>Option selected – Highly</u> This was the first year I got a chance to be part of one of the sessions and it is very good. I would definitely highly recommend it.	Safe Strong and Free is perfect for the children. Having someone come in from outside the nursery and work with them on these kinds of issues is invaluable. The children always respond better to outside agencies and the was no exception!! A huge thank you!!
41	<u>Option selected – Apprehensive</u> I feel you would need appropriate training to deliver the workshops and it is not the kind of workshop that just 'anyone' could deliver. The quality of deliverance from the project worker has a big impact on how children listen and remember!	<u>Option selected – Apprehensive</u> -	<u>Option selected – Strongly agree</u> In my experience our children listen much better as it is someone new and exciting!	<u>Option selected – Highly</u> -	I think it would be a great loss to loose this valuable service even if it helps a few children then surely this is so important.

42	<u>Option selected – Apprehensive</u> Would not feel comfortable breaching the subjects on my own with children.	<u>Option selected – Adequate & Apprehensive</u> Would find it quite difficult to sit down with parents and discuss issues!	<u>Option selected – Strongly agree</u> 100%! Definitely better if somebody who is specially trained and also not close relationship to parents/carers.	<u>Option selected – Highly Highly.</u> This is a fantastic service and we can't thank staff enough.	A big thank you for ssf over the years, it is a fantastic service for the children to help them realise more about sensitive issues. Because it is an outside agency the children really engage and take part, it is a talking point in the nursery and the children like to practise what they have learnt (permission for special scream!). BIG than you to Alison who is just fantastic. Keep up the good work!
43	<u>Option selected – Apprehensive</u> Although I have attended ssf workshops I would not be confident to put the issues across as well as trained staff do.	<u>Option selected – Apprehensive</u> To most parents this may not be a problem but if there is any misunderstanding or queries I'm not sure I would be able to answer these.	<u>Option selected – Strongly agree</u> I also feel children of this age benefit from an outside person coming in to discuss these issues because they will listen and absorb more information.	<u>Option selected – Highly</u> I think ssf is incredibly important to young children and would rather see it expanded rather than cut.	As a parent of a child who was bullied but did not benefit from ssf I can see how important it is to children. Maybe if my daughter had had the chance of the workshops she could have coped better.
44	<u>Option selected – Apprehensive</u> I do not feel confident at all as I think it is very important to put it over to the children correctly and I have no training on the subjects to do so.	<u>Option selected – Apprehensive</u> Again I don't think I have adequate knowledge (of the subjects) to be able to discuss it comfortably with parents.	<u>Option selected – Strongly agree</u> It is important that the subjects are dealt with sensitively and correctly otherwise more damage could be done (i.e. child gets extremely upset). Person delivering workshops should be trained.	<u>Option selected – Highly</u> It has been an extremely worthwhile workshop. The children have learnt so much and anything we can do nowadays to help keep children safe has got to be good and worthwhile.	These workshops must continue. Society has changed so much that children are more vulnerable than ever before. These workshops help us to help children take ownership for their lives.
45	<u>Option selected – Apprehensive.</u> -	<u>Option selected – Apprehensive</u> -	<u>Option selected – Strongly agree</u> -	<u>Option selected – Highly</u> -	Ssf is a great service and the children really appreciate the different presentation and are able to take on board the messages.
46	<u>Option selected – Apprehensive</u> -	<u>Option selected – Apprehensive</u> -	<u>Option selected – Agree</u> -	<u>Option selected – Highly</u> -	-
47	<u>Option selected – Apprehensive</u> -	<u>Option selected – Apprehensive</u> -	<u>Option selected – Strongly agree</u> -	<u>Option selected – Highly</u> -	A very valuable resource that gives the children a chance to explore potential dangers in a safe secure situation. It often prompts further discussion within the group.

50	<u>Option selected – Apprehensive</u> -	<u>Option selected – not at all</u> I doubt it would be covered at all.	<u>Option selected – Strongly agree</u> -	<u>Option selected – Highly</u> The fact that older children are taken out of the nursery to discuss matters in a different way than they would in nursery reinforces what they learn, making it have a stronger impact and feelings of importance which ???	We feel strongly this service is vital in supporting kids and parents in a way that is not possible within everyday nursery. That all parties involved feel this is the most effective way of dealing with the topics; educating all parties involved in an empathetic memorable and useful way.
51	<u>Option selected – Adequate</u> -	<u>Option selected – Adequate</u> -	<u>Option selected – Strongly agree</u> -	<u>Option selected – Highly</u> -	Having been involved with ssf over the last 2 years I have been very impressed with the service provided. I feel the children respond especially well to someone they don't know as well, it seems to make them realise that it is an important message.

56	<u>Option selected – Apprehensive</u> I feel the issues discussed at Safe Strong and Free are all very important and I do not feel we would be able to deliver the information in such an effective way.	<u>Option selected – Apprehensive</u> Again I do not feel we would be confident enough to do this.	<u>Option selected – Strongly agree</u> Yes definitely, it makes it all the more important when someone from the outside comes in to do something with the children.	<u>Option selected – Highly</u> We all feel it is an excellent service and would be very sorry to lose it. Safe Strong and Free staff are very good at what they do and it is always very successful.	-

58	<u>Option selected – Fairly</u> -	<u>Option selected – Fairly</u> -	<u>Option selected – Not sure</u> -	<u>Option selected – Adequate</u> -	If it is continued in pre-school settings – is the ssf message carried further on up the school system – where children may be more anxious to discuss these matters!

59	<u>Option selected – Not at all</u> -	<u>Option selected – Not at all</u> Wouldn't like this issue both with children and adults to get overlooked with such a busy curriculum.	<u>Option selected – Strongly agree</u> Feel happy that outside party tackles this very sensitively issue.	<u>Option selected – Highly</u> Has always been done very professionally by approachable and child friendly staff. Plays very important part in child safety.	Would be very disappointed if this service was to be withdrawn. Parents have always been positive about letting children take part in sessions. Children perhaps take better when a special visitor comes in to talk to them.
60	<u>Option selected – Fairly</u> -	<u>Option selected – Fairly</u> -	<u>Option selected – Agree somewhat</u>	<u>Option selected – Fairly highly</u> -	-
61	<u>Option selected – Apprehensive</u> -	<u>Option selected – Not at all</u> We wouldn't have time to meet parents – school setting.	<u>Option selected – Agree</u> -	<u>Option selected – Fairly highly</u> -	-
62	<u>Option selected – Apprehensive</u> SSF cover these issues very sensitively.	<u>Option selected – Apprehensive</u> -	<u>Option selected – Agree</u> -	<u>Option selected – Fairly highly</u> It would be a great loss to lose this service.	-
63	<u>Option selected – Adequate</u> -	<u>Option selected – Apprehensive</u> -	<u>Option selected – Strongly agree</u> -	<u>Option selected – Highly</u> -	Safe Strong and Free programme is very entertaining for the children. Not only are they captivated by the puppets they are learning extremely important lessons at the same time. The programme also covers key elements associated with the curriculum for excellence which is also plays an important part in the children's learning. Staff find the programmes very beneficial subjects to add to their planning.
64	<u>Option selected – Apprehensive</u> I do not feel I would have the experience to cover all the areas that need to be discussed.	<u>Option selected – Apprehensive</u> -	<u>Option selected – Strongly agree</u> -	<u>Option selected – Highly</u> -	I do think that the subjects which are covered by ssf are better being discussed by someone out-with the nursery environment, the children are more likely to listen and absorb what is being said to them if it is a different person telling them the stories and discussing the situations.
65	<u>Option selected – Adequate</u> -	<u>Option selected – Apprehensive</u> -	<u>Option selected – Strongly agree</u> -	<u>Option selected – Highly</u> -	-
66	<u>Option selected – Adequate</u> If the service is withdrawn we'd lose the quality.	<u>Option selected – Adequate</u> Adequate is not good enough.	<u>Option selected – Agree somewhat</u> It makes it easier sometimes.	<u>Option selected – Highly</u> We'd be sorry to lose ssf.	-

67	<u>Option selected – Apprehensive</u> I have a basic knowledge of the issues covered and would be able to impart this to the children but I feel that the children respond better to visitors who come to the nursery to talk with them therefore getting the issues across to the children in a more confident way. The children get a lot out of these visits.	<u>Option selected – Apprehensive</u> As above.	<u>Option selected – Strongly agree</u> Parents find it easier to communicate with those whom they are not personally involved.	<u>Option selected – Highly</u> The service provided by ssf is second to none and it should be allowed to continue and spread to other areas not yet covered by this wonderful group.	-
68	<u>Option selected – Adequate</u> Prefer someone to come in. More interesting for children.	<u>Option selected – Adequate</u> Prefer someone to come in.	<u>Option selected – Strongly agree</u> See questions 1 and 2.	<u>Option selected – Highly</u> It's fab, we will miss it if it stops.	-
69	<u>Option selected – Adequate</u> Would rather/prefer professional advice such as ssf – easier for an outside person dealing with this sensitive topic and children tend to listen to a new person in this case.	<u>Option selected – Adequate</u> As above and parents may feel more comfortable talking to a different, not as involved (detached) person about ssf with sensitive topics.	<u>Option selected – Strongly agree</u> As said in question 1 and 2.	<u>Option selected – Highly</u> An excellent and valuable service which I hope can continue.	-
70	<u>Option selected – Apprehensive</u> -	<u>Option selected – Apprehensive</u> -	<u>Option selected – Strongly agree</u> -	<u>Option selected – Fairly highly</u> -	-
71	<u>Option selected – Apprehensive</u> The ssf staff are trained to deal with these sensitive issues. I also think the children respond better to a visiting adult for these important issues and it means staff can support the children.	<u>Option selected – Apprehensive</u> Again we have not been trained in the same way as the ssf staff.	<u>Option selected – Strongly agree</u> I think this is very important.	<u>Option selected – Highly</u> This is an excellent service and workshops always get very positive feedback.	Having worked with the ssf staff for a number of years and attended workshops with the children I think this is a very important part of the nursery child's pre-school year and should be continued so that future children can have the same benefits.
72	<u>Option selected – Apprehensive</u> We have a good relationship with children but still think these issues need a specially trained person.	<u>Option selected – Apprehensive</u> Again a specially trained person is needed.	<u>Option selected – Strongly agree</u> -	<u>Option selected – Highly</u> -	I would be very disappointed if these workshops finished. They have been very beneficial to the children. The issues have been dealt with extremely well – the children have been really interested in all three workshops.
73	<u>Option selected – Adequate</u> But I feel that someone who has been specifically trained to do this can deliver it better than me. The children also respond to someone different coming in.	<u>Option selected – Apprehensive</u> Again a specifically trained person will have more experience of the type of concerns and questions parents might have.	<u>Option selected – Strongly agree</u> -	<u>Option selected – Highly</u> -	We would be very disappointed if this service were to be withdrawn. We have been very pleased with ssf since the beginning and would hope that it would continue.

74	<u>Option selected – Adequate</u> I feel that someone who has been trained and come into nursery would be better than me.	<u>Option selected – Adequate</u> Again, feel like someone trained would be better than me.	<u>Option selected – Strongly agree</u> They are very good and trained well. It better to be detached.	<u>Option selected – Highly</u> This is a good asset and runs very well. Good training.	If ssf was to be cut, I feel it would be wrong as it is a good service for our nursery both for parents and children. The children always enjoy the workshop and have lots to talk about after.
75	<u>Option selected – Very</u> -	<u>Option selected – Very</u> Already have good parent relations.	<u>Option selected – Not sure</u> GIRFEC policies and procedures already in place (+ up-to-date training)	<u>Option selected – Adequate</u> (Sorry) the workshops can be quite boring and old fashioned.	Fully support this message and principles and ssf but feel staff could implement workshops within their own nurseries.
76	<u>Option selected – Not at all</u> -	<u>Option selected – Not at all</u> -	<u>Option selected – Strongly agree</u> -	<u>Option selected – Highly</u> -	If this service were to be withdrawn I feel it would have a detrimental effort for our children. The programme enables youngsters to feel more confident within themselves and teaches them how to react and speak out in certain situations. If we had to deliver this service then surely staff would require to undertake training.
77	<u>Option selected – Apprehensive/Not at all</u> I'd be apprehensive as I don't know all the information to be able to discuss all the issues.	<u>Option selected – Apprehensive/Not at all</u> I wouldn't be so confident in answering the parents questions – as they may think of an issues that I'm not aware of.	<u>Option selected – Strongly agree</u> Someone who has been trained makes a lot better coverage, with meaning, and can respond, and are more aware of what to expect when an issue came up regarding abuse, and how to deal with it.	<u>Option selected – Highly</u> It is a very valuable service and is put across really well to children without scaring them.	I hope you get the funding to continue as we would miss your service.
78	<u>Option selected – Not at all</u> The children were with ssf staff at all times.	<u>Option selected – Not at all</u> I was not in on the issues covered by ssf staff.	<u>Option selected – Strongly agree</u> -	<u>Option selected – Highly</u> -	I feel the children respond better when the person talking to them about a subject they don't know, they listen better, the people doing it have all the right resources and involve the children in the right way. If this service was to be taken away I would feel apprehensive about doing this with children and parents.
79	<u>Option selected – Not at all</u> I would not feel at all confident dealing with the 'abuse' side of ssf.	<u>Option selected – Apprehensive</u> -	<u>Option selected – Strongly agree</u> -	<u>Option selected – Highly</u> -	-

81	<u>Option selected – Adequate</u> I think the service could be provided by staff but they would need training and time to practice. This would seem a waste since there are already experienced, trained individuals who present the course very well.	<u>Option selected – Apprehensive</u> I think it is better to have someone the parents don't know to discuss these sensitive issues with.	<u>Option selected – Agree somewhat</u> -	<u>Option selected – Fairly highly</u> -	-

83	<u>Option selected – Very</u> -	<u>Option selected – Adequate</u> -	<u>Option selected – Strongly agree</u> -	<u>Option selected – Fairly highly</u> -	Sessions obviously valuable – children benefit in many ways, especially in less privileged areas.
84	<u>Option selected – Adequate</u> This workshop should be done by trained workers.	<u>Option selected – Adequate</u> -	<u>Option selected – Strongly agree</u> -	<u>Option selected – Highly</u> -	Although this years project worker got the message across, (which is the reason for this workshop), last years project worker was more involved with the children, this years worker wasn't as approachable.
85	<u>Option selected – Not at all</u> I feel that these sensitive subjects are very difficult to discuss with children in a proper and sensitive way.	<u>Option selected – Not at all</u> Parents would feel far more at ease with a trained person discussing these issues with their children. I would feel awkward discussing some of the issues with parents.	<u>Option selected – Strongly agree</u> I feel the children would listen better and remember everything.	<u>Option selected – Highly</u> It would be very disappointing if they withdrew this service from the nursery as I feel it is a huge success.	-
86	<u>Option selected – Fairly</u> -	<u>Option selected – Fairly</u> -	<u>Option selected – Strongly agree</u> -	<u>Option selected – Highly</u> -	What the safe strong and free team aim to do is to help reduce the vulnerability of young children to abuse and assault. I feel that if the service was withdrawn I don't think it could be delivered in the same way as is done by the specially trained volunteers such as the Safe Strong and Free team.
87	<u>Option selected – Adequate</u> -	<u>Option selected – Apprehensive</u> -	<u>Option selected – Strongly agree</u> -	<u>Option selected – Highly</u> It would be a great pity if this facility was lost as it is an invaluable tool in helping to keep the children safe and also covers many areas of the curriculum during each session.	-

90	<u>Option selected – Fairly</u> Feel that have been involved with ssf and have had to deal with sensitive issues from time to time.	<u>Option selected – Apprehensive</u> Feel we would need professional input with this, especially 'sensitive' issues.	<u>Option selected – Strongly agree</u> -	<u>Option selected – Fairly highly</u> It is a good idea to be covering such sensitive topics and be a support, if needed.	Feel that perhaps the actual 'content' could be updated and maybe 'not'; scripted to make it more natural. We do value the commitment by the volunteers and appreciate the service you provide.
91	<u>Option selected – Not at all</u> It's so important for the children to learn to protect themselves I'd rather it was done by ssf who are specially trained.	<u>Option selected – Apprehensive</u> I feel this is a specialised area.	<u>Option selected – Strongly agree</u> -	<u>Option selected – Highly</u> I wish it had been available for my own children, when they were little. I think it's excellent.	During the 90's I worked in Smithton Nursery and we had the ssf workshops there. I think it should be expanded (Nationwide or further) not be running the risk of having to cut-back or stop! This (ssf) is invaluable and as I'd seen it in action in my previous employment in the Inverness area, I was very pleased when I heard it was going to be held at my current workplace in Tain. You cannot put a price on a child's safety and I would recommend this programme to everyone with children. Funding should be given to this excellent resource.

96	<u>Option selected – Not at all</u> It is important to have an independent voice coming in to do specific workshops.	<u>Option selected – Not at all</u> We would not have a time without children in which to have an adult workshop.	<u>Option selected – Strongly agree</u> On sensitive issues care and attention to detail of the way something is delivered is very important.	<u>Option selected – Highly</u> It addresses important issues in an informative yet relevant way for the children attending nursery.	-

97	<u>Option selected – Apprehensive</u> I feel the ssf staff have the workshops well planned and staff are very experienced in carrying them out. The use of the props helps children to concentrate and to understand the messages being put forward.	<u>Option selected – Apprehensive</u> -	<u>Option selected – Strongly agree</u> Think this is important – the message coming from specially trained adults makes it more effective. Children have a new face, new person to listen to, not the same adults who are familiar to them.	<u>Option selected – Highly</u> This is a very valuable programme which would be greatly missed by staff, parents and children were it to be disrupted by funding cuts. The messages being put over to the children are extremely important and help children become confident in dealing with issues they come across as they grow and develop.	I fully support the work of Safe Strong and Free and urge The Highland Council to think very carefully before they initiate cuts of funding for this programme. What can be more important in the safety and well being of our children? Giving them strategies and confidence to deal with difficult issues is fundamental. This is an extremely important programme which should be fully funded in order to educate young lives on some very delicate issues.
98	<u>Option selected – Not at all</u> I do not have the relevant knowledge and information.	<u>Option selected – Not at all</u> -	<u>Option selected – Strongly agree</u> -	<u>Option selected – Highly</u> -	Ssf staff doing workshop are conveying to the children what dangers might happen in a fun, friendly and informative way. If this was not available, it would be a huge loss and the children may suffer.

102	<u>Option selected – Adequate</u> Ssf covers a lot of issues very well. 105	<u>Option selected – Apprehensive</u> I would discuss some of the issues happily but would find others very difficult to get across to the children in a child-friendly manner.	<u>Option selected – Apprehensive</u> I know most of the parents I've spoken to are relieved to know this subject will be covered by a specially trained person. Not all are happy to discuss <u>all</u> issues with their own child.	<u>Option selected – Strongly agree</u> -	<u>Option selected – Highly</u> I appreciate how well the staff deliver this sensitive subject. The use of the puppets is incredibly beneficial to the children allowing them to experience how they are feeling.	-

112	<u>Option selected – Fairly</u> -	<u>Option selected – Fairly</u> -	<u>Option selected – Strongly agree</u> -	<u>Option selected – Highly</u> -	I believe it would be a great loss to see this service withdrawn especially with the increasing vulnerability our children have to face in today's society.

113	<u>Option selected – Adequate</u> We do cover most issues in health and wellbeing at nursery.	<u>Option selected – Apprehensive</u> -	<u>Option selected – Not sure</u> You are teaching them about strangers but yet it is a stranger who is speaking to them.	<u>Option selected – Fairly highly</u> Sheila was very good and explained everything very well – much improved on previous years.	-
114	<u>Option selected – Not at all</u> I feel that a specially trained person is much better fitted to come in and discuss these matters with children on what are sensitive subjects.	<u>Option selected – Not at all</u> Parents would feel happier and more confident with a specially trained person.	<u>Option selected – Strongly agree</u> I think when a specially trained person comes in to do this and this is their main focus it is treated more seriously by children and parents.	<u>Option selected – Highly</u> I think it is well and sensitively presented and I do not feel we have the necessary training, focus, etc, to deliver these workshops.	-
115	<u>Option selected – Apprehensive</u> -Although I have obviously observed the workshops over a number of years and am a confident practitioner, I would not feel confident to address the issues/questions that are covered by the workshops. I am not trained to deliver these workshops.	<u>Option selected – Apprehensive</u> -I would feel uncomfortable discussing some of the workshop topics with parents as again I do not have the specialist training and knowledge that ssf provide.	<u>Option selected – Strongly Agree</u> -See previous comments.	<u>Option selected – Highly</u> -ssf has consistently provided a high quality service that gives a voice to our very youngest children who before taking part in the workshops may not have had the skills or knowledge to protect themselves. Ssf workshops make our youngest most vulnerable children safer.	To lose ssf would be a tragedy. It enables our youngest children to talk about matters that worry them or inappropriate actions/situations that they may encounter. It teaches them, at a level they can understand, about relationships and empowers them to take action for themselves. Ssf workshops teach staff how to deal with situations and makes discussing sensitive matters much easier with children, staff and parents.
116	<u>Option selected – Not at all</u> -Have never heard of this until I started work at the nursery in 2009	<u>Option selected – Not at all</u> -	<u>Option selected – Strongly Agree</u> -	<u>Option selected – Highly</u> -	This is such a sensitive subject to be discussing with children and I feel they listen and respond better about it when they learn about it from someone they don't know. We never had this when I attended school and I think it is a great thing to do at such an early age.
117	<u>Option selected – Apprehensive</u> It is a great service about such important aspects.	<u>Option selected – Adequate</u> -	<u>Option selected – Strongly agree</u> Of course – it would be completely inappropriate	<u>Option selected – Highly</u> Being a parent of a child who formerly attended I feel it is extremely valuable. It would be such a shame for children & families to miss out.	These issues keep children safe from harm – teaches them to protect themselves – provides awareness of the importance of “them” as individuals – its okay to say NO. If children are taught this it could <u>save lives!!!</u> The team do a wonderful job in educating children, families & staff about serious issues & how to deal with them. Thank you.

119	<u>Option selected – NO ANSWER</u> Feel that this is delivered better by people who have been involved in the training.	<u>Option selected – NO ANSWER</u> Again I feel this is better covered by people who have had training and delivered topic to our nurseries so should be able to answer questions that arise.	<u>Option selected – Strongly agree</u> It would be very uncomfortable for someone who knew the families to deliver such sensitive material and also remain unbiased.	<u>Option selected – Highly</u> It allows staff, children and parents to openly discuss topics. Everyone is listened to fairly and their experiences valued.	Strongly feel that a refresher course for the primary children should be considered as we noticed the interest of the children while the topics were happening.. Because the puppets are delivering the stories it helps the children to focus and listen. Well done everyone!
